

Form 1.

Example survey
of retailers

..... Shopping Centre is looking to introduce a 'green' (environmental improvement) policy and would like your help become more environmentally responsible.

What do you think are the most important environmental issues to focus on in the shopping centre?

(Please number, in the order of priority, the issues you think should be addressed)

- Recycling/waste management
- Conserving energy
- Environmental purchasing policy
- Pollution (air, stormwater or odour)
- Conserving water
- Other (please specify)

Information to help introduce a green policy
